

CHRISTMAS Angel

Make this Christmas angel (or a whole choir of them!) to hang from the Christmas tree.

1. Photocopy and distribute to the children.

Ask them to:

- Cut out the circle.
- Cut along the lines A, B and C.
- Cut along the line of the three-quarter inner circle.

2. Ask them to look at the photograph of the angel. Get them to draw a face and decorate the body and wings of the angel using gold and silver pens and glitter.

3. Wrap the paper round and fit slot A into slot B to form the wings. The body of the angel is now a cone and the circle in the middle the head. Bend the head and fix a thread to the back so that you can hang the angel on the tree or in the classroom.
